Executive Committee Meeting Report Tuesday, October 5, 2021 at 6:00 p.m., Amy Levin Center

EXECUTIVE COMMITTEE: The Executive Committee shall be composed of the Chair, the Vice Chair, Secretary, Chief Governance Office, and ALL Chairs of Standing Committees. Between the meetings of the BOD, the Executive Committee, shall have, and may exercise, the authority of the BOD, except as such authority is limited by statute. The Executive Committee shall have only such power and authority of the BOD between meetings of the BOD as shall be necessary to address crisis situations of the Board; any such action taken by the Executive Committee between meetings of the BOD shall be subject to ratification or modification by the BOD at its next regularly scheduled meeting. For the purposes of this section, "crisis situations" shall include the following: a. Litigation or claims (pending, threatened, or anticipated); matters requiring BOD action or BOD decision that cannot be delayed;

- b. Public relations matter that cannot be delayed;
- c. Natural disaster issues, (e.g. floods, fire, tornadoes, etc.);
- e. Workplace violence, sabotage, systems security/failures, computer hacking, data destruction or alteration;
- f. Staff/volunteer theft, fraud, or mismanagement;
- g. Financial decisions requiring board action or board decisions that cannot be delayed.

Board Members Attending: Daniel Urbin, Board Chair; Regan Phillips, Vice Chair; Dr. Denise Eacott, Secretary; David Ashenhurst, Chief Governance Officer; Kreig Brusnahan, James Schaeper

Board Members Absent: Pat McGervey

Staff Attending: Michael K. Doud, Executive Director; Nancy Kelsey, Patrice McKinney

The Executive Committee met on Tuesday, October 5, 2021 at 6:00 p.m., and presents with eight informational items and one recommendation:

I. Informational:

- a. Executive Director's Job Description A draft of the job description was reviewed with a sharing of suggested edits. Regan Phillips shared that the Ad Hoc Committee will meet October 14th to review the draft job description.
- b. Consent Agenda Dan Urbin stated that several Board Members do not consider the consent agenda process an effective way of conducting Board meetings due to its poor means of communication. He is looking for more communication at the Committee level. The consent agenda policy was reviewed, its use discussed, with a point of clarification if an item should be removed from the consent agenda if there is a question. There was a suggestion that Dan read the consent agenda aloud, Committee Chairs will be asked to briefly share information from the reports, and if there is a lot of robust discussion and questions during the Board meeting of an agenda item, then that item will be returned to the Committee for discussion at their next meeting. The Board Member asking questions of the agenda item can be invited to that Committee meeting in order to have their questions fully vetted at that time.

- c. November BODs meeting With the end-of-year holidays approaching, there was discussion about a combined meeting of Community Planning and Oversight (CP&O) and Finance Committees. There was concern that doing so would create a quorum of the full Board. It was determined that on November 9, 2021 CP&O would meet at 5:00 p.m. and Finance would meet at 6:00 p.m. Both meetings will be held at the Amy Levin Center. It will be important to ensure a quorum for the Committee meetings. There was a question about participation via Zoom meetings with a response that it is not permissible.
- d. Lorain County Crisis Receiving Center Project Michael shared that the Request for Qualifications (RFQ) has been released. A RFQ Review Committee will be formed and its members will include Michael Doud, Barry Habony, as well as Karen Perkins who works in the Lorain County Facilities Management department. Michael asked that two Board Members also serve on the Committee to which James Schaeper and Kreig Brusnahan volunteered.
- e. Oberlin Avenue Site Dan shared that at the October 17, 2019 Board meeting, resolution #19-10-11 was approved to sell the Oberlin Avenue site, however this has not yet taken place. Michael stated that staff will go through the building to identify any items to be saved with the building sold as is.
- f. BOD Retreat It was shared that the Board of Directors Retreat will take place sometime between January and February 2022. The location is yet to be determined.
- g. Ad Hoc Levy Committee Recommendations Nancy Kelsey shared an Agenda Process Sheet and a strategic communications proposal related to hiring three consultants to assist with an initial brand survey, communications and campaign strategy. More details will be vetted through the Ad Hoc Levy Committee. In the meantime, for added help with the levy Kreig Brusnahan will outreach to LCCC's Tracey Green and Regan Phillips will outreach to the former LCBMH's Public Relations Director Joan Samkow.
- h. Ohio Attorney General, 1999 Opinions, Opinion No. 99-030 This item is a point of discussion as a Board Member recently expressed concern that one of their peers was wearing a mask with a political affiliation. The Committee reviewed the Ohio Attorney General's Opinion No. 99-030. It was determined that there will be a conversation with the Board Member.

II. Recommendation

Juneteenth 2022 – There is a request to align Board staff policy with the newly-added Federal Juneteenth holiday. There was a motion by Regan Phillips, seconded by Dr. Denise Eacott to recommend the full Board adopt a resolution affirming Juneteenth a holiday for MHARS Board staff effective June 2022. Resolution 21-10-02 The Committee Recommends the Board adopt Juneteenth as a holiday effective June 2022. Since the holiday in 2022 falls on a Sunday, the office will be closed Monday, June 20, 2022.

III. Old Business

None.

IV. New Business

- a. **Recommendations in Committee Reports** James Schaeper commented that although there is a new reporting process, any recommendations should come from the Board Chairs rather than Board staff.
- b. **Tours** Dr. Eacott asked if there could be facility tours for the three remaining offsite Board meetings to which Dan Urbin agreed. The tours will be modified to be mindful of any private spaces.
- V. **Determination of Consent Agenda** The Committee determined that all items would be added to the consent agenda.

The meeting adjourned at 7:42 p.m.

Consent Agenda Policy

Approved 10/22/20; revised 04/22/21

Purpose

Consent agendas are commonly used by Boards to enable them to focus their time and energies against strategic issues of the organization by preventing smaller and routine, but still necessary issues from interfering with the opportunity to explore more strategic issues. It acknowledges that all items brought before the Board are important to address, but not all are expected to require the same amount of time and attention. As such, consent agendas combine several smaller and self-explanatory needs into one motion with an opportunity for limited discussion, if needed, with but with minimal discussion expected.

Policy

The MHARS Board strives to uphold its fiduciary responsibility of being transparent for all matters that come before them. This can be achieved in a manner that is both efficient and effective, incorporating a consent agenda for matters that move routine items along quickly. Items that will appear on the consent agenda can include: minutes, financial reports, staff reports, committee reports, committee appointments, final approval of recommendations for funding that have been thoroughly discussed previously, and dates of future meetings. Any MHARS Board committee can recommend item(s) that may go onto a consent agenda for the Board, provided the committee affirms such by a majority vote.

Responsibility

All documentation associated with consent items will be provided to meeting participants in advance so that they can still make an informed vote on all grouped items. Board members *must* review the documentation before the meeting to ensure that they are informed of the issues that are to be passed as part of the consent group.

Board members will be given an opportunity to ask associated questions—and have them answered—before the vote. Questions and answers should be shared with all meeting participants. Simple questions, clarifications, or short amounts of dialogue relative to a consent item may be discussed after the motion, but before approval. Consent items will not be removed entirely from the consent agenda for the sole purpose of answering a simple question. If the board member does not receive sufficient information to maintain the agenda item on the consent agenda, they may move it be moved to the regular agenda.

At the board meeting, the consent item(s) will be included as a separate agenda item.

At the beginning of the meeting, the chair will ask the meeting attendees if anyone wants to discuss any of the items listed on the consent agenda.

If it is determined that an item on the consent agenda requires discussion it must be removed from the consent portion and moved to the regular agenda and addressed individually. For future

meetings in which there is no question or concern over the item, it may be placed back into the consent portion of the agenda.

The chair will read aloud the remaining consent items and may move to adopt the consent agenda as a whole. It is not necessary for a vote to be taken on the consent agenda. Instead, the items may be approved, pending the absence of any objections.

Meeting minutes will include full text of all resolutions and reports that were approved as part of the consent group.

M EXECUTIVE COMMITTEE

- Consultants will provide guidance to the Mental Health, Addiction and Recovery Services Board in the following three areas related to planning for 2022 levy: surveying, communications and campaign strategy
- They have each presented proposal outlining their recommendations. (See attached)
 - Surveying: A telephone survey comprised of a series of 300 telephone interviews (+/- 5.65 percent overall estimated margin of sampling error) among registered voters.
 - Communications and campaign strategy: This would include research and leader engagement, analyzing and enhancing existing communications and strategizing for effective community engagement and outreach.

Related Facts:

- The MHARS Board levy is up for renewal at .6 mill/5-year levy, last renewed in May 2018. It expires Dec. 31, 2022. There are three chances to renew/replace/renew with additional: Nov. 2022, May 2023, Nov. 2023.
- 1.2 mill/10-year, last renewed Nov. 2014 expires Dec. 31, 2024. There are three chances to renew/replace/renew with additional: Nov. 2024, May 2025, Nov. 2025.
- This will be the first mental health renewal since the boards have merged. Ballot language will need review to reflect use under merged board.
- Recovery One issue previously rejected by voters in Lorain County in 2018.
 - Data collected during that period reflects that stigma about addiction played a role in outcome

- In 2017, Fallon Research contracted with the Lorain County Board of Mental Health for surveying in the amount of \$13,000 for the period from December 7, 2017 to June 1, 2018 for the May 2018 election
- Also, for the May 2018 election, the mental health board contracted with JS Strategies for the sum of \$10,000

OPINION NO. 99-030

Syllabus:

A board of alcohol, drug addiction, and mental health services is permitted under the terms of R.C. 340.03(A)(5) and R.C. 340.033(A)(12) to expend public funds to promote the approval by the electorate of a tax levy for mental health programs or alcohol and drug addiction programs, provided that the board has public funds available that may lawfully be expended for that purpose. (1979 Op. Att'y Gen. No. 79-022, approved and followed. 1994 Op. Att'y Gen. No. 94-041; 1992 Op. Att'y Gen. No. 92-029; 1968 Op. Att'y Gen. No. 68-124; 1937 Op. Att'y Gen. No. 1245, vol. III, p. 2142; 1920 Op. Att'y Gen. No. 1532, vol. II, p. 915, distinguished.)

To: Tim Oliver, Warren County Prosecuting Attorney, Lebanon, Ohio By: Betty D. Montgomery, Attorney General, April 14, 1999

We are in receipt of your request asking whether the Warren County Board of Alcohol, Drug Addiction, and Mental Health Services may use public dollars to promote its levy campaign. You have asked that we consider the conclusions reached in 1979 Op. Att'y Gen. No. 79-022 and determine if they are still applicable. That opinion considered statutory language authorizing a community mental health and retardation board to "[r]ecruit and promote local financial support for mental health and retardation programs from private and public sources," then appearing in R.C. 340.03(I), and concluded that the board was authorized to expend public funds to promote the approval of a tax levy by the electorate.

Statutory language analogous to that at issue in 1979 Op. Att'y Gen. No. 79-022 now appears in R.C. 340.03(A)(5) and relates to the funding of mental health programs by a board of alcohol, drug addiction, and mental health services (ADAMH board). Corresponding language relating to financial support for alcohol and drug addiction programs appears in R.C. 340.033(A)(12).

To address your request, let us first consider the organization and authority of ADAMH boards. Alcohol, drug addiction, and mental health service districts and joint-county districts are established pursuant to R.C. 340.01(B) and are given a variety of duties concerning the evaluation, development, coordination, and funding of programs relating to alcohol, drug addiction, and mental health services. See R.C. 340.03; R.C. 340.033. They are governed by ADAMH boards. See R.C. 340.02; note 1, supra.

ADAMH boards receive some state funds and may also request money from any participating county. R.C. 340.07-.09; R.C. 5119.62. With the approval of the voters, property taxes may be levied by a board of county commissioners under R.C. 5705.19, R.C. 5705.191, or R.C. 5705.221, or by the ADAMH board of a joint-county district under R.C.

June 1999

¹ Where community mental health boards established under former R.C. 340.02 continue to function, they have all the powers, duties, and obligations of ADAMH boards with regard to mental health services. R.C. 340.021(A). Similarly, alcohol and drug addiction services boards have those powers, duties, and obligations with regard to alcohol and drug addiction services. *Id.* Statutory references to ADAMH boards include those other boards. *Id.* Accordingly, for purposes of this opinion, references to ADAMH boards also include community mental health boards and alcohol and drug addiction services boards.

5705.19 or R.C. 5705.191. See R.C. 5705.01(A), (C), (I); R.C. 5705.03; 1981 Op. Att'y Gen. No. 81-044; 1979 Op. Att'y Gen. No. 79-022; 1975 Op. Att'y Gen. No. 75-089.²

1979 Op. Att'y Gen. No. 79-022 noted that several earlier opinions had concluded that there was no authority for a statutorily-created governmental entity to expend public funds to promote the approval of a tax levy by the electorate. See 1968 Op. Att'y Gen. No. 68-124 (syllabus) (finding regional water district "without authority to expend public funds to conduct an educational campaign, the ultimate goal of which is to insure passage" of a bond issue); 1937 Op. Att'y Gen. No. 1245, vol. III, p. 2142 (finding board of county commissioners without authority to expend public funds for advertisements showing voters the necessity of a tax levy); 1920 Op. Att'y Gen. No. 1532, vol. II, p. 915 (syllabus) (finding board of education "without authority to expend public funds in printing and mailing to each taxpayer literature and advertising matter in favor of any proposition to be voted upon by the electors at an election called by such board of education"). The 1979 opinion approved those earlier opinions but distinguished them because of the language of the relevant statutes. The 1979 opinion found a different conclusion appropriate in the matter there at issue on the grounds that "the terms of R.C. 340.03 specifically place upon a community mental health and mental retardation board the duty of actively seeking both public and private financial support for its programs." 1979 Op. Att'y Gen. No. 79-022, at 2-79 (emphasis added).

Subsequent opinions have also concluded that public entities are not permitted to expend public funds to promote the approval of a tax levy by the voters. See 1994 Op. Att'y Gen. No. 94-041 (finding board of trustees of county tuberculosis hospital without authority to expend public moneys to promote the approval of a tax levy by the electorate); 1992 Op. Att'y Gen. No. 92-029 (finding county children services board or county department of human services without authority to expend public funds to promote the approval of a tax levy for children services). Again, the conclusions were based on the statutory language under consideration in each opinion, which differed from that appearing in R.C. 340.03. Therefore, those opinions can readily be distinguished from the matter here at issue.

As noted in the earlier opinions, it is well established that the authority for a public entity to act in financial transactions must be clearly granted, and any doubt must be resolved against a proposed expenditure. See State ex rel. Locher v. Menning, 95 Ohio St. 97, 99, 115 N.E. 571, 572 (1916). A general grant of authority to carry out statutory functions is not sufficient to authorize an expenditure for the promotion of a tax levy. See 1994 Op. Att'y Gen. No. 94-041; 1992 Op. Att'y Gen. No. 92-029; 1979 Op. Att'y Gen. No. 79-022.

It has been determined that the language here under consideration is sufficiently specific to authorize the expenditure of public funds to attempt to persuade voters to approve a tax levy. The language currently appearing in R.C. 340.03 states plainly that, subject to rules issued by the Director of Mental Health after consultation with relevant constituencies, "the board of alcohol, drug addiction, and mental health services shall ... (5) Recruit and promote local financial support for mental health programs from private and public sources." R.C. 340.03.(A). The corresponding language of R.C. 340.033 states that, in accordance with procedures and guidelines established by the Department of Alcohol and Drug Addiction Services, an ADAMH board "shall ... (12) Recruit and promote local finan-

² A board of county commissioners is not required to provide resources beyond those set forth in a community mental health plan developed and submitted under R.C. 340.03 or a plan for alcohol and drug addiction services prepared and submitted under R.C. 340.033 and R.C. 3793.05. R.C. 340.011(B).

cial support, from private and public sources, for alcohol and drug addiction programs." R.C. 340.033(A). The word "shall" is ordinarily construed to be mandatory. See Dorrian v. Scioto Conservancy Dist., 27 Ohio St. 2d 102, 271 N.E.2d 834 (1971) (syllabus, paragraph 1). Thus, an ADAMH board is given the duty of promoting local financial support, from private and public sources, for mental health programs and for alcohol and drug addiction programs. A levy, which is a public source of dollars, has been consistently construed to fall within the contemplation of this statutory language.

In 1979, the Ohio Attorney General construed the language of R.C. 340.03 as authorizing the expenditure of public funds to promote the approval of a tax levy by the electorate. That construction has been adopted and followed for nearly twenty years. In 1989 the General Assembly elected to include the language at issue—then applicable to mental health programs—in the statutory provisions of R.C. 340.033 governing alcohol and drug addiction programs. See 1989-1990 Ohio Laws, Part III, 4170, 4203 (Am. Sub. H.B. 317, eff. Oct. 10, 1989). The General Assembly's use of this language following the issuance of 1979 Op. Att'y Gen. No. 79-022 suggests that the General Assembly concurred in the interpretation set forth in that opinion.

More recently, the General Assembly has enacted additional legislation, again indicating a legislative intent that ADAMH boards have statutory authority to expend public funds to promote tax levies. R.C. 9.03, enacted by the General Assembly in Am. Sub. S.B. 201, 122nd Gen. A. (1998) (eff. Dec. 21, 1998), provides general authority for the governing body of a political subdivision³ to "use public funds to publish and distribute newsletters, or to use any other means, to communicate information about the plans, policies, and operations of the political subdivision to members of the public within the political subdivision and to other persons who may be affected by the political subdivision." R.C. 9.03(B).

The statute contains certain exceptions to this grant of authority to communicate information, as follows:

- (C) Except as otherwise provided in division (A)(5) of section 340.03 or division (A)(12) of section 340.033 [340.03.3] of the Revised Code, no governing body of a political subdivision shall use public funds to do any of the following:
- (1) Publish, distribute, or otherwise communicate information that does any of the following:
 - (a) Contains defamatory, libelous, or obscene matter;
- (b) Promotes alcoholic beverages, cigarettes or other tobacco products, or any illegal product, service, or activity;
- (c) Promotes illegal discrimination on the basis of race, color, religion, national origin, handicap, age, or ancestry;

³ By definition, a political subdivision is a body corporate and politic (except a charter municipal corporation or a charter county) that is responsible for governmental activities in a geographic area smaller than the state and is subject to the sovereign immunity of the state. R.C. 9.03(A); see Ohio Const. art. I, § 16; see also R.C. 2743.01(B); R.C. 2744.01(F).

- (d) Supports or opposes any labor organization or any action by, on behalf of, or against any labor organization;
- (e) Supports or opposes the nomination or election of a candidate for public office, the investigation, prosecution, or recall of a public official, or the passage of a levy or bond issue.
- (2) Compensate any employee of the political subdivision for time spent on any activity to influence the outcome of an election for any of the purposes described in division (C)(1)(e) of this section. Division (C)(2) of this section does not prohibit the use of public funds to compensate an employee of a political subdivision for attending a public meeting to present information about the political subdivision's finances, activities, and governmental actions in a manner that is not designed to influence the outcome of an election or the passage of a levy or bond issue, even though the election, levy, or bond issue is discussed or debated at the meeting.
- R.C. 9.03 (emphasis added). Thus, in general, a political subdivision is permitted to expend public funds to communicate information but is not permitted to expend public funds to support or oppose the passage of a levy or bond issue.⁴ However, the statute recognizes the exceptions provided in R.C. 340.03(A)(5) and R.C. 340.033(A)(12), thereby acknowledging that those statutes authorize expenditures that would otherwise be prohibited—namely, expenditures to support the passage of a tax levy. This recent legislative enactment provides additional support for the conclusion that ADAMH boards are permitted to expend public funds to support the passage of tax levies. Therefore, we approve and follow 1979 Op. Att'y Gen. No. 79-022 on that point.⁵

There may be some question as to the distinction between merely disseminating information and conducting a campaign to promote a particular ballot issue. See 1968 Op. Att'y Gen. No. 68-124; see also Stanson v. Mott, 17 Cal. 3d 206, 551 P.2d 1 (1976); Putter v. Montpelier Pub. Sch. Sys., 166 Vt. 463, 697 A.2d 354 (1997). Thus, it may be necessary to consider questions involving specific facts on a case-by-case basis.

⁴ A provision pertaining specifically to boards of education appears in R.C. 3315.07(C)(1) and states: "Except as otherwise provided in [R.C. 3315.07(C)(2), authorizing the presentation of information about school finances and activities and board actions], no board of education shall use public funds to support or oppose the passage of a school levy or bond issue." See 1981-1982 Ohio Laws, Part I, 1557, 1558 (Am. Sub. H.B. 72, eff. Sept. 28, 1981); see also 1991 Op. Att'y Gen. No. 91-064.

of a public body and that public money may be expended for that purpose. See State ex rel. Corrigan v. Seminatore, 66 Ohio St. 2d 459, 423 N.E.2d 105 (1981); 1994 Op. Att'y Gen. No. 94-041, at 2-210 n.1; 1992 Op. Att'y Gen. No. 92-029, at 2-110 n.3. Accordingly, even without express statutory authority, public officials and public offices may be permitted to inform the public of the consequences that are expected to follow from the passage or defeat of a particular tax levy. For example, if a tax levy will provide funds for a particular program, or if the defeat of a tax levy will result in the inability to fund a particular program, public officials may so inform the public, either orally or in print. In addition, public officials may express their own views regarding the merits of a particular ballot issue. The general authority to expend funds and administer public programs, however, does not permit a public body or a public official to expend public funds specifically to attempt to persuade

Of course, an ADAMH board may expend for the promotion of a tax levy only moneys that are available for that purpose. Certain funding sources may prohibit the expenditure of funds for purposes of promoting a levy or may require that all funds be spent for some other specific purpose. See, e.g., Ohio Const. art. XII, § 5 (proceeds of a tax levy may be expended only for the purpose for which the tax was levied); R.C. 340.07; R.C. 340.09; R.C. 5119.62. The language that permits an ADAMH board to expend public funds to promote its levies does not provide funds, but merely allows the board to expend for that purpose such funds as the board may have that may lawfully and appropriately be expended for that purpose. Thus, an ADAMH board is permitted under the terms of R.C. 340.03(A)(5) and R.C. 340.033(A)(12) to expend public funds to promote the approval by the electorate of a tax levy for mental health programs or alcohol and drug addiction programs, provided that the board has public funds available that may lawfully be expended for that purpose.

We are aware that various arguments have been made that the expenditure of public funds to promote voter approval of a tax levy is unconstitutional. See, e.g., 1994 Op. Att'y Gen. No. 94-041, at 2-210 n.2 ("[t]here may also be constitutional impediments to the enactment of a statutory provision authorizing the expenditure of public moneys by the board of trustees of a county tuberculosis hospital for the purpose of advocating voter approval of a tax levy"); 1992 Op. Att'y Gen. No. 92-029, at 2-111 n.4 ("[t]here is significant question whether a legislative enactment authorizing the use of public funds to promote or oppose passage of a tax levy would be constitutional. See generally Note, The Constitutionality of Municipal Advocacy in Statewide Referendum Campaigns, 93 Harv. L. Rev. 535 (1980). Thus, if the statutory scheme in Op. No. 79-022 were not distinguishable from that at issue in your inquiry, the propriety of the result in that opinion would need to be reconsidered").6

Some recent cases discuss potential constitutional arguments on this point. See, e.g., Carter v. City of Las Cruces, 121 N.M. 580, 915 P.2d 336 (N.M. Ct. App. 1996); see also Burt v. Blumenauer, 299 Or. 55, 699 P.2d 168 (1985); Putter v. Montpelier Pub. Sch. Sys., 166 Vt. 463, 697 A.2d 354 (1997). Our research has disclosed, however, that many of the cases prohibiting the expenditure of public funds to promote the passage of a tax levy find that the relevant statutory language does not authorize the expenditure. See, e.g., Stanson v. Mott, 17 Cal. 3d 206, 551 P.2d 1 (1976); Mines v. Del Valle, 201 Cal. 273, 257 P. 530 (1927), overruled in part on other grounds by Stanson v. Mott, 17 Cal. 3d 206, 551 P.2d 1 (1976); Burt v. Blumenauer.

Judicial language suggesting the unconstitutionality of public expenditures to promote ballot issues is generally dictum. It usually includes exceptions for statutes that plainly authorize particular expenditures. See, e.g., Stanson v. Mott, 17 Cal. 3d at 209-210, 551 P.2d at 3 ("at least in the absence of clear and explicit legislative authorization, a public agency may not expend public funds to promote a partisan position in an election campaign"); Mines v. Del Valle, 201 Cal. at 287, 257 P. at 537 ("[t]o use ... public funds to advocate the adoption of a proposition [bond issue] which was opposed by a large number of ... electors

June 1999

people to vote a particular way on a ballot issue—that is, to say "Vote Yes on Issue X." Authority to expend public money for that purpose must be specifically granted.

⁶ The authority cited for the constitutional question concerns municipal corporations that seek to take positions on statewide referendum issues. See Note, The Constitutionality of Municipal Advocacy in Statewide Referendum Campaigns, 93 Harv. L. Rev. 535 (1980). That issue is distinguishable from the issue whether a public entity may promote passage of its own tax levy. See Alabama Libertarian Party v. City of Birmingham, 694 F. Supp. 814 (N.D. Ala. 1988).

would be manifestly unfair and unjust to the rights of said ... electors and the action of the board of public service commissioners in so doing cannot be sustained unless the power to do so is given to said board in clear and unmistakable language"); Anderson v. City of Boston, 376 Mass. 178, 187 n.10, 380 N.E.2d 628, 634 n.10 (1978) ("there may well be situations in which a public purpose would be served by municipal advocacy. We would give, of course, considerable deference to legislative findings concerning the existence of a public purpose in such situations"); Citizens to Protect Public Funds v. Board of Educ., 13 N.J. 172, 181, 98 A.2d 673, 677 (1953) (an expenditure to advocate only one side of a bond issue "is ... not within the implied power and is not lawful in the absence of express authority from the Legislature").

A frequently-quoted statement was made in 1953 by Justice William J. Brennan, Jr., then of the Supreme Court of New Jersey and subsequently of the United States Supreme Court, as follows: "The public funds entrusted to the board belong equally to the proponents and opponents of the proposition, and the use of the funds to finance not the presentation of facts merely but also arguments to persuade the voters that only one side has merit, gives the dissenters just cause for complaint." Citizens to Protect Public Funds v. Board of Educ., 13 N.J. at 181, 98 A.2d at 677. The New Jersey case, however, was decided on the grounds that the issues concerning promotion of a ballot question were moot. Id. at 178, 98 A.2d at 676. The argument that public funds should not be expended to promote the passage of a tax levy has been expressed in various contexts, see, e.g., Palm Beach County v. Hudspeth, 540 So. 2d 147, 154 (Fla. Ct. App. 1989) ("[t]he appropriate function of government in connection with an issue placed before the electorate is to enlighten, NOT to proselytize"), but it has not been firmly adopted as a principle of law, see, e.g., Stanson v. Mott; Putter v. Montpelier Pub. Sch. Sys. 8

There is no question but that a reasonable expenditure of public funds to advertise the necessity of a tax levy in certain cases would be perhaps a proper and in some instances even a laudable purpose, but, as has been stated by this office, it is a lawful rather than a laudable purpose that justifies the expenditure of the taxpayers' money. The remedy in the instant case is obviously with the legislature.

1937 Op. Att'y Gen. No. 1245, vol. III, p. 2142, at 2143. 1979 Op. Att'y Gen. No. 79-022 adopted and applied this analysis, finding clear statutory authority for the expenditure of public funds to promote a tax levy.

⁷ The proposition that funds may be expended to promote tax levies if clear statutory authority is provided was expressed in an early opinion of the Ohio Attorney General as follows:

⁸ The argument that public funds should not be expended to promote the passage of a tax levy was expressed in 1920 Op. Att'y Gen. No. 1532, vol. II, p. 915, at 917, as follows:

[[]A] board of education has no authority to issue propaganda matter favorable to some particular side of a question to all the electors and then have the school funds, which belong to all the electors, used for the payment of such advertising and propaganda. In other words, it would be using the funds in which one portion of the electors had equal rights with another group for the benefit of one group; that is, using one's funds against himself.

To the contrary, at least one federal court has expressly allowed the expenditure of public money to promote the passage of a tax levy. Alabama Libertarian Party v. City of Birmingham concerned a special election to impose a property tax for library enhancement and to levy a charge on telephone subscribers for enhanced 911 emergency telephone service, and another special election to approve a bond issue. Alabama Libertarian Party v. City of Birmingham, 694 F. Supp. 814 (N.D. Ala. 1988). The city used public funds to pay for advertising and brochures to promote passage of the propositions. The court upheld the city's expenditures against a challenge that they violated the First Amendment rights of dissenting citizens, stating, in part:

The City and its officials not only have the right, but the duty, to determine the needs of its citizens and to provide funds to service those needs. The funds must come from some source. The City officials are charged with the responsibility of providing those funds by some means. If they cannot directly tax through ordinance, they have the incidental right to solicit the votes of citizens to provide those means

...The City in effect made a finding that the funds were needed and that it should seek the support of its citizens in acquiring these funds. This is clearly a public function.

...While defendants might be forbidden to spend funds to support candidates, oppose initiative proposals, etc., they are not forbidden to publicize and seek public support for their own governmental proposals ...

Alabama Libertarian Party v. City of Birmingham, 694 F. Supp. at 817-18. This analysis appears to be applicable to the matter here under consideration.

Thus, while the issue whether public funds may be expended to promote the passage of various types of ballot issues is one of controversy and one on which legal experts may differ, see, e.g., Putter v. Montpelier Pub. Sch. Sys., there is judicial authority that would permit the expenditure of public funds to promote the passage of a tax levy for the purposes of the board proposing the levy, when there is statutory authority for such expenditure, see Alabama Libertarian Party v. City of Birmingham. It would be possible to give R.C. 340.03(A)(5) and R.C. 340.033(A)(12) a more narrow reading than that adopted in 1979 Op. Att'y Gen. No. 79-022, to permit an ADAMH board to recruit and promote local financial support only through means other than attempting to persuade the electorate to pass a levy. See Stanson v. Mott, 17 Cal. 3d at 218, 551 P. 2d at 20-21 (distinguishing between legislative lobbying and election campaigning). In light of the history of the existing language and the recent legislation enacted by the General Assembly, however, we deem it appropriate to retain the established interpretation of that language, absent legislative amendment or clear direction from the courts.

It is important to note that, as with any expenditure of public funds, the ADAMH board is bound by the requirement that it exercise its discretion in a reasonable manner and is subject to judicial review for an abuse of discretion. See, e.g., State ex rel. Corrigan v. Seminatore, 66 Ohio St. 2d 459, 423 N.E.2d 105 (1981); 1989 Op. Att'y Gen. No. 89-068; 1986 Op. Att'y Gen. No. 86-086. This opinion does not constitute a finding that any particular expenditure is reasonable or properly authorized.

For these reasons, it is my opinion, and you are hereby advised, that a board of alcohol, drug addiction, and mental health services is permitted under the terms of R.C.

June 1999

340.03(A)(5) and R.C. 340.033(A)(12) to expend public funds to promote the approval by the electorate of a tax levy for mental health programs or alcohol and drug addiction programs, provided that the board has public funds available that may lawfully be expended for that purpose. (1979 Op. Att'y Gen. No. 79-022, approved and followed. 1994 Op. Att'y Gen. No. 94-041; 1992 Op. Att'y Gen. No. 92-029; 1968 Op. Att'y Gen. No. 68-124; 1937 Op. Att'y Gen. No. 1245, vol. III, p. 2142; 1920 Op. Att'y Gen. No. 1532, vol. III. p. 915, distinguished.)

a. Community Response to Trauma Update – Mark Johnson and Regan Phillips
Existing crisis responses are accessed or offered to individuals, families and even schools.
The community impact of trauma, including tragic deaths by shooting, house fires, domestic violence, car accident, etc., is a more difficult response, so we would like to look at some evidence-based practices and partnerships to address this area of trauma that effects our community in a more global way.

SHARING HOPE: SHARE FROM THE CHAIR THE ART OF HEALING

The Sharing Hope project is aimed supporting black/brown families in the Lorain County community that have suffered a loss that has been a result of violence or accidental (however not opioid or overdose related). The loss has been traumatic in nature and has had a lasting impact on their families and the community as a whole.

Sharing Hope is designed to be an afternoon event that will support families through exploring grief, mental wellness through dialogue, storytelling, guided discussions and other healing activities.

The Effects of Racial Trauma on Mental Health: Deaths Captured on TV and Media

Racial tension is once again at a critical tipping point in the U.S. Many people have asked, "Why now? Why was the death of George Floyd the catalyst for this national reckoning on racial injustice?"

The truth is: this movement is over 500 years in the making. Only now, with the widespread use of videos captured on cell phones and posts on social media, has the awareness of injustices outside of those happening within our own neighborhoods become too prevalent to ignore.

While this has allowed for a collective response and an awareness that these are not isolated events, it has also served to re-traumatize people who witness the deaths of Black people at the hands of the police. This serves to fuel hypervigilance and mistrust of a system that vows to protect and serve.

What Is Racial Trauma?

The number of instances of overt disenfranchisement toward the Black community are countless. During slavery, a psychiatric condition was developed to describe slaves who attempted to flee enslavement, which was referred to as "Drapetomania." Also, during slavery, Black men were considered only to be 3/5 of a man. Between 1932-1972, the U.S. Public Health Services enrolled Black men into the Tuskegee Syphilis Experiment, which was disguised as providing treatment for Black men with syphilis. Instead, participants were prescribed vitamins or administered insufficient doses of medications that resulted in a number of unnecessary deaths. These instances — among many other atroclties — have resulted in significant, ongoing trauma to Black people within our country.

Despite being currently five to six generations removed from slavery, the trauma of enslavement was so severe that it implanted a psychological and social shock in the minds of Black people. Current generations still carry the scars mentally and socially. In addition to knowing that this is the history of Black people in America, the systemic racism that has remained in place since the end of slavery has resulted in ongoing racial trauma and injustices to Black people, such as racial profiling, voter suppression and overrepresentation in the criminal justice system. Enduring constant prejudice, discrimination and blas takes a toll on one's mental health.

Recurring Trauma Through The Media

These psychologically damaging experiences of ongoing systemic racism are further exacerbated through the reoccurring videos and images of Black people dying at the hands of police officers. The number of lives lost don't just include Michael Brown (age 18), Freddie Gray (age 25), Tamir Rice (age 12), Eric Garner (age 27), Ahmaud Arbery (age 25), Atatlana Jefferson (age 28), Breonna Taylor (age 26), Elijah McClain (age 23) or George Floyd (age 46). They include so many more.

There is a collective experience that is felt. It is every Black person realizing that at any point in time, the stories that have become all too familiar could be their story. It is realizing that people in the Black community are dying unnecessarily.

Unfortunately, Black people have always lived with the fear and worry that at any point in time either themselves or one of their family members could be the victim of a negative interaction with law enforcement. Recent events that have been highlighted in the news are not just isolated incidents, but rather a reflection of how this country has continued to undervalue the lives of Black people.

The complexities associated with the re-traumatization of Black people, and the broadened awareness of social and racial injustices, have ballooned to create a societal awakening. However, becoming mentally overwhelmed and susceptible to extended trauma or other mental health issues related to this continued exposure is prevalent as well.

As the struggle for equality continues, it is critically important for Black people to carefully consider the effect of these repeated images and videos on their mental health. For those who feel repeatedly triggered, it can be helpful to mitigate exposure as much as possible by unfollowing accounts that post these videos and images or setting content blocks and limits on your phone. Additionally, reach out to family and friends if you feel overwhelmed and need to talk to someone you trust who understands. And lastly, if your mental health is suffering, it is essential to consider seeking culturally competent mental health care.

Tonya has experience with this from CC and Notes: LCCC is working on a grant for development in BH workforce. Trying to create a certificate. (also aligned with CHIP). Early start and sets a course through also brought up Peer Recovery Supporter training opportunities. Further connection as the prior goal regarding comfort first being felt within comfort of neighborhood, and people who look like me.

Many of our law enforcement/court initiatives are focused on BH. CIT training has components on diversity and disparities. Augmenting this with further training could be offered as an enhanced skillset.

Variance Analysis September 2021

REVENUES:

Levy - \$161,408 & 4.4% and \$345,916 & 4.4%

 We received a higher amount from the 1st half settlement for calendar 2021 of \$257,757 based on the certification amount to be collected in 2021 by the County Auditor versus what was budgeted and delinquent payments received of \$332,219.

Local Grants - No Variance

State Allocations & Grants – (\$248) & 0.0%

• Received slightly less for Psychotropic Drug Reimbursement Program than anticipated.

Federal Allocations & Grants – (\$3,608,841) & (53.2%)

 Please refer to Allocations & Grants Supporting Schedule for detailed breakdown. We are awaiting payments for HUD Grant. Funding was not needed and will not be drawn down for Indigent Patient Placement, Adolescent Treatment Services and MAT. The STOP grant has ended and no further funding will be received. All other grant funding not received will be carried over into FY22.

Pass-Through Grants – (\$27,000) & (3.1%)

• Currently waiting on processing of the Lorain County Family Drug Court Therapist reimbursement to The LCADA Way.

Integrated Services Partnership – (\$95,135) & (10.5%)

• 4th Quarter invoice in process for Lorain County Children Services reimbursement.

Miscellaneous – (\$370,917) & (75.6%)

 Variance due to decreased bed days for adult inpatient at Mercy resulting in a lower cost to the Board and less Medicaid retro funds. Current estimate puts revenues for the year about \$43,000 below original estimate. In addition, we did not complete the sale of the Oberlin Avenue Property in FY21 that was estimated at \$279,370. Reimbursement to ISP Partnership for ISP Director's salary and fringes not yet received.

Variance Analysis September 2021

EXPENSES:

Personnel-Salary & Benefits – \$212,282 & 11.2%

• Personnel expenses ended below budget due to unexpected staffing changes and unfilled positions throughout the fiscal year.

Operating - \$191,228 & 38.8%

• Operating expenses were under budget due to COVID, Ad-Hoc funding of allocation was not spent in FY21 and an overall reduction in operating costs in general. The overall reduction in operating costs can be seen as a reduction of the operating budget in FY22 of 11.8% or \$58,240.

Printing & Advertising – \$17,917 & 22.4%

• Printing & Advertising expenses were under budget as the Communications and Community Relations Director position was unfilled for a period of time.

Board Development & Recognition – \$4,349 & 87.0%

• Minimal expense incurred for Board Development & Recognition during FY21.

Capital Outlay - \$350,000 & 100.0%

• Building addition pushed into FY22 due to unforeseen circumstances.

Auditor & Treasurer Fees-Levy - \$5,657 & 2.9%

• Fees associated with the tax settlements are slightly under budget for the fiscal year.

Integrated Services Partnership – \$829,328 & 50.5%

• This variance is primarily due to the number of children in care was less than what was budgeted.

Pass-Through Grants - \$27,000 & 3.1%

• Currently waiting on processing of the Lorain County Family Drug Court Therapist reimbursement to The LCADA Way.

Agency & Community – \$699,268 & 24.2%

• Please refer to Agency & Community Supporting Schedule for detailed breakdown. Variance primarily due to COVID restrictions and unspent grant funding to be carried over into FY22.

Network Agency Contracts - \$5,497,976 & 27.6%

 Please refer to Network Agency Contracts Supporting Schedule for detailed breakdown. Variance due to a budgeted but unallocated balance of grant funding in the amount of \$1,040,447 along with a lag in billings and underproduction of agencies, the majority of which is \$2,322,421 of unused SOR funding allocations.

Ad Hoc Levy Committee Meeting Minutes October 26, 2021 at 5 p.m. | CR 118

The Ad Hoc Levy Committee shall evaluate proposals and strategies related to levy preparations for 2022.

Present Board Members: Dr. Hope Moon and Regan Phillips, Committee Co-Chairs Karen Sutera, Michele Flanagan and Patricia Bell

Present Staff: Nancy Kelsey, Michael Doud, Andrea Sedlacek

- 1. Call to order -5:02 p.m.
- 2. Presentations by prospective levy consultants
 - a. Paul Fallon, Paul Fallon & Associates
 - b. Jens Sutmoller, JS Strategies
 - c. Galen Schuerlein, Roetzel Consulting Solutions
- 3. Close of meeting 5:51 p.m.

As we discussed at our recent meeting, here is the communications survey that I suggest considering for fine-tuning and targeting communications during the coming year.

Although this was prospective, I have tentatively scheduled it to commence on September 20th. If you wish to proceed with it, let me know and I can propose a time line that includes a conference call to review and edit it, so we can make changes that you would like or Jens might need.

The cost will be \$15,500 which is a fully-inclusive rate that covers all aspects.

Let me know if the next week or so if this is something you wish to pursue.

Thanks,

Paul

First Draft
COMMUNICATIONS SURVEY
Lorain County, Ohio
Begins 9/20/2021, 5:00 P.M. E.S.T.

Hello, my name is ______. I work for Fallon (foul-un) Public Opinion Research. We are conducting a survey of attitudes about local issues and public policies affecting your community. This is not a sales call and I am not selling anything -- I merely want to ask you a few short questions. Your answers will be kept strictly confidential.

For example, please let me begin by asking...

(Cellular phone respondents)

- S. 1. Our records indicate that I am speaking to you on a cellular phone. Can you talk right now, or would you be distracted from doing something that requires your full attention in order to do it safely, such as driving an automobile?
- 1. Yes proceed
- 2. No schedule call back
- 3. DK/NA probe

(All respondents)

Q. 1. Generally speaking, would you say that Lorain County is going in the right direction, or has it gotten off onto the wrong track?

- 1. Right direction
- 2. Wrong track
- 3. Mixed/both (do not read)
- 4. DK/NA
- 0. Do not live in that county (do not read) thank and terminate

DATE: August 31, 2021

SUBJECT: Strategic Communications Proposal

There are both significant challenges and real promise ahead. The right communications, engagement, and implementation strategies can solidify and enhance the overall effectiveness and reputation of the Mental Health, Addiction and Recovery Services (MHARS) Board of Lorain County, to advance your goals during the upcoming levy cycles. We provide valuable expertise that supports the MHARS Board staff to achieve the vision and goals which we have discussed.

The objective of this engagement is to be a partner to accomplish the strategic communications priorities of the MHARS Board and to expand and enhance outreach and engagement with the community. We will achieve these objectives by (1) working in partnership with the MHARS Board and Administration as a dynamic resource, (2) developing a proactive, comprehensive, and strategic communications plan, (3) investing in a robust paid media, earned press, and social media strategy, and (4) helping the Administration execute the communications plan in alignment with the strategic plan.

With JS Strategies having worked with the former Lorain Mental Health Board and with Roetzel Consulting Solutions' local expertise, we are committed to the future success of the MHARS Board and believe that we are uniquely qualified and positioned to fulfill the deliverables outlined below. We look forward to discussing next steps with you. Please do not hesitate to contact us if you have any questions, comments, or concerns.

Thank you.

Comprehensive Scope of Services

Maximizing public brand awareness and credibility are important objectives of the MHARS Board. While we offer extensive expertise and experience, we also know that each situation is unique and requires a specific approach. We offer a distinct understanding of the current environment of the community and combine that with expertise designing a process that will produce the necessary insights and information the MHARS Board needs to accomplish your short- and long-term goals.

In an effort to assist the MHARS Board of Trustees and Administration in making decisions regarding funding possibilities, we suggest the following services and timeline:

Research and Leader Engagement (Phase One – Four Months)

• Assist with a Statistically-Accurate Phone Polling

Under separate contract, we will work with your pollster and help identify and draft questions designed to assist the Board in deciding the best course of action for MHARS. Please note that the polling will be conducted by an independent third party under separate contract.

• Conduct Interviews with Local Leaders

We will create an interview guide designed to facilitate conversation with community leaders about MHARS's past communications efforts, what worked, what could be better, impressions of funding and service needs, and expectations about MHARSs plan for the future. Working with MHARS, we will suggest names for interviews, conduct the phone interviews and analyze the results looking for themes and areas for improvement, reinforcement and update.

• Conduct Online Surveys

We will write, conduct and analyze surveys focused on three constituencies: customers, staff and residents. The customer and staff surveys will include greater emphasis on what services and programming are needed from MHARS, what is working and what could be improved. The resident survey will gauge community perceptions about the organization, performance, positives and negatives, and any impressions about what is needed for MHARS moving forward. The resident surveys will also test the types of information respondents would like to hear about MHARS.

• Distribution and stakeholder buy-in is key to the success of an online survey and we will suggest to MHARS the third-party partners who should be engaged to disseminate the survey link via their networks, social media and email lists. This process will reinforce that MHARS wants to engage their community and respond to community input in planning their future.

<u>Analyze and Enhance Communications</u> (Four Months Contemporaneous with Research and Leader Engagement)

• Complete a Communications Audit

We will audit past communications sent by and about MHARS and analyze how the messages were received and interpreted by the audience[s]. We will also review local media coverage, the website, social media and any available email or online analytics to identify traffic patterns.

Design a Comprehensive Communications Plan

Using the information and insights gathered during the analysis, we will work with your communications team to design a comprehensive communications and marketing plan that supports the goals of MHARS and compliments the strategic plan. This includes designing and helping to execute paid media outreach programs to communicate with key constituencies.

Create Effective Messaging

We will create effective and efficient messaging to proactively explain current positioning and respond in day-to-day situations. We will help create presentations, talking points, questions and answers, press releases, and fact sheets to educate the community about what is at stake and the potential next steps.

Provide Communications Advice and Counsel

We will help ensure that communications are succinct, effective and timely and we will help continue to build social media presence, email lists, phone lists and third-party information sharing networks including elected officials, businesses, local stakeholders, parents and alumni. We will provide strategic counsel for budgets, priorities, strategies, and tactics for strong, consistent, and transparent communications as requested.

• Conduct Legal Review of Funding Options

Under separate contract, if requested, we will engage outside counsel (either Roetzel & Andress LPA or your outside counsel firm) to analyze election deadlines, financing options, and the pros and cons of each.

• Analyze Past Election Results

We will review and analyze past levy results, identifying any areas for improvement or outreach to ensure the best chance for success.

Community Engagement and Outreach (Phase Two – Three to Six Months)

- Support Community Engagement and Outreach. We will help identify and continue building relationships with community groups and organizations needed to share an educational message about MHARS and potential funding.
- **Build Advisory Committee.** We will help identify and reach community leaders to ensure broad and diverse supporters throughout the county.
- Update as Needed. Things change. Planning and execution are fluid processes and we will continually refine and update our approach to maximize our community impact. Simply put, we will do what it takes to ensure that MHARS makes an informed, research based, decision about funding options.

Executive Director Report October 26, 2021

Virtual Meetings

OACBHA has identified an existing bill HB122 amendment to telehealth to add virtual
meeting language. HB122 has broad legislative support and it is expected to pass.
However, it is unlikely anything is passed before December. Director Criss and the Ohio
Council are support of this language. If approved, the MHARS Board will need to create
a policy to have hybrid meetings.

Psychiatric Deterioration Standard Legislation

• Legislation HB439 has been introduced to amend Chapter 5122 to make a change to the law regarding involuntary treatment for mentally ill persons subject to a court order. The amendment proposes to add language, one additional criterion (from 5 to 6) for an individual to meet the standard to be court ordered into treatment. This change has support by Ohio NAMI and several professional trade associations.

Lorain/Medina County Community Based Correctional Facility (CBCF)

 Tuesday, October 5th the Board Chair and myself met with the CBCF leadership team and toured the facility.

MHARS Building Addition Project

• Wednesday, October 20th, the Bid Opening resulted in higher than expected building costs. Additional information will be presented to the Board for its review.

The LCADA Way's Pearls of Wisdom Event

• Thursday, October 21st, the Board sponsored the annual benefit & recognition dinner. Several Board of Directors and staff attended the event.

Lorain County Crisis Receiving Center (LCCRC) Project

• Friday, October 22nd, responses to the RFQ Project Manager/Owner Representative was due. The RFQ Review Committee is scheduled to meet on Wednesday, October 27th.

Drug Court Graduation

• Friday, October 22nd, attended the Elyria Municipal Court Judge Robert White Recovery Court Graduation

Prescription Drug Take-Back Day

• DEA's National Prescription Drug Take Back Day was October 23rd 10AM to 2PM. The National Prescription Drug Take Back Day goal is to provide a safe and responsible means of disposing of prescription drugs, while educating the general public about the potential for abuse of medications. Several volunteers, including myself, Friends of the MHARS Board, Board of Directors and Board staff provided support in several communities throughout Lorain County. Thank you Jinx and Tonya for organizing the activities.

Levy Campaign

• MHARS Board staff have obtained proposals from consultant(s) to support the MHARS Board as it determines the work that will need to be undertaken to support the levy. The Executive Committee met October 5th and made the recommendation for the consultant(s) to present their proposals to the Ad Hoc Levy Committee that is scheduled to meet Tuesday, October 26th at 5:00p.m.

Gathering Hope House

• Tuesday, October 26th, met with the staff at the consumer operated service site to offer board staff support during the transition to identify new executive director for the agency.

Intersystem Partnership (ISP) Director

• Executive Directors & Judge(s) from the child serving systems to include MHARS Board, Lorain County Juvenile Court, Lorain County Children Services & Lorain County Developmental Disability Board continue to meet weekly to identify the role and responsibilities of the ISP & FCFC Director(s). The ISP position is funded by all of the systems and these same systems contribute to pooled funding for residential services and the ISP position which is part of the MHARS Board TO. This position will continue to work in close collaboration with the FCFC Director that will be under the auspices of Children Services effective July 1, 2022. More information as it relates to funding changes may come forward to BOD for further review.

Communications

- As events have resumed, requests have picked up for MHARS staff to attend events. To assist with the covering the number of event requests received, orientations have begun for Friends of the MHARS Board volunteers. Opportunities have been posed for volunteer or advocacy roles.
- The monthly eNewsletter list continues to grow
- We just completed livestreaming the underage drinking town hall on our Facebook page, the first such event we have livestreamed
- Ads ran this month in various publications, online and on radio since the last board meeting for drug take back day, Friends of the MHARS Board, general brand awareness, etc.

Subject: Contract Increase - Point of Service (POS) Funding

Contract Entities: Far West Center

Contract Term: Fiscal Year 2021

Funding Source(s): Levy dollars

Contract Increase Amount: \$7,678.35

Project Description: This recommendation is in order to cover the services already provided during the fiscal year 2021, in which evidenced-based mental health services were provided for Lorain County residents. Due to the amount of services provided during FY21, a budget increase is necessary to cover all services. Far West is an agency is in Amherst that provides psychiatric care, counseling, group therapy, case management and family programming. They serve Lorain County residents out of their Westlake office as well.

Related Facts: This funding supports payment for Lorain County residents to receive Mental Health treatment who do not have insurance or qualify for sliding fee scale payment for services.

Number Served: 1,401 served in Fiscal Year 2021 per bi-annual reports

System Impact: Far West provides evidence-based treatment to Lorain County residents who are accessing therapeutic support for their mental health symptoms.

Metrics (How will goals be measured)	Submits bi-annual report to MHARS Board that includes evidence-based practices, number of clients served and their outcome measures. Additionally, they are Joint Commission accredited.

Evaluation/ Outcome Data (Actual results from program)	Far West utilizes Ohio Scales as an outcomes measure and submits this to the MHARS Board bi-annually.

Subject: Lorain County PATH Program

Contract Entities: Neighborhood Alliance

Contract Term: July 1,2021- June 30, 2022

Funding Source(s): OHMHAS/SAMHSA

Contract Increase Amount: \$16,575.96 - Carryover from FY21

\$55,305.00- New funding for SUD Outreach Worker

Total \$71,880.96

Project Description:

- The Projects for Assistance in Transition from Homelessness (PATH) program offers services for people with serious mental illness (SMI), including those with co-occurring substance use disorders, who are experiencing homelessness or are at risk of becoming homeless. PATH services include community-based outreach, mental health, substance abuse, case management and other support services, as well as a limited set of housing services.
- Funding for program expansion to include SUD Outreach. An FTE will be added to provide the PATH services for those with substance use disorders only and funding added for housing supports.

Related Facts:

- Contract increase of \$16,575.96 due to carry over. Increases from \$142,617 to \$159,192.96
- The MHARS Board provides additional, match funding to help house/maintain housing for people who are in the PATH program. Because this is carry over, there is no match required
- Persons who are linked with the PATH program are then linked with the Housing Assistance Program (HAP) to help with additional housing supports.
- The PATH program has a Social Security Outreach, Access and Recovery (SOAR) specialist who is trained
 to help people apply for benefits. The SOAR program increases access to Social Security disability benefits for
 eligible children and adults who are experiencing or at risk of homelessness and have a serious mental illness,
 medical impairment, and/or co-occurring substance use disorder.

 The SUD Outreach Program funding includes \$44,305.00 for a full time SUD outreach worker to add to the existing PATH team and an additional \$7,000 for housing purposes that can be used for minor renovations, moving assistance, security deposits, and one time rent for eviction prevention.

Number Served:

- There were 332 persons who were outreached by the PATH program in FY 21 and 259 of them received services through the PATH program.
- The goal for the SUD outreach funds is to serve at least 100 persons and house 8 persons.

System Impact:

- The PATH program is able to outreach and work with our homeless or at risk of being homeless residents
 and get them linked to the appropriate services they need to get off of the street and successfully out of
 shelter into housing reducing their chances or returning to the homeless system.
- Previously we have been unable to assist those who do not have a severe mental illness in the PATH
 Program. Now the PATH program will be able to also assist persons who are homeless and have a
 substance use disorder.

Metrics (How will goals be measured)

- Quarterly expenditure and data reports are due to OHMHAS October 31st 2021, January 31sth, 2022, April 30th, 2022, and July 31st, 2022. An annual report is due to SAHMSA at the end of the year, date TBD.
- Metrics reported: Budget, Persons Served, Services Provided, Referrals Provided,
 Outcomes, Housing Outcomes, Demographics: Gender, Age, Race, Ethnicity, Veteran
 Status, Co-Occurring Disorders, SOAR Connection, Prior Living Situation, Length of
 Stay, Chronically Homeless, and Domestic Violence History
- SUD Outreach data will be pulled quarterly from HMIS (Homeless Management Information System) and provided to OHMHAS on the following data: Persons Served, Services Provided, Referrals Provided, Outcomes, Hosing Outcomes, Demographics: Gender, Age, Race, Soar Connections

Evaluation/ Outcome Data (Actual results from program)

- For FY21, 332 persons were outreached via the PATH Program. Of those, 259 became active with the PATH program.
- There were 98 referrals made for mental health services and of those, 64 were connected.
- There were 27 people housed through PATH. (Please note: this number is low due to the lack of available and affordable housing in Lorain County as well as Covid related issues).
- There is no data available for the SUD outreach funding as this is a new position.

Contract Amount: \$34, 509.80 for P2R SOR 2.0 project and \$31,353.92 for P2R's Workforce Development project

Total \$65,863.72

Project Description:

Place 2 Recover SOR 2.0 Project:

Place 2 Recover Training and Resource Center, Inc (P2R) is a nonprofit multicultural community center that services a wide variety of marginalized populations. Staff and volunteers are diverse in race, ethnicity, gender, and socioeconomic background. P2R proposes to serve those who have struggled with accessing resources, establishing recovery support, and gaining and maintaining employment after recovery from opioid use disorder, stimulant use disorder, tobacco/nicotine dependency, concurrent use disorders, and to promote harm reduction.

P2R will provide peer support, case management, programs, connection to resources, and job placement services to the target population. P2R will provide support along cultural lines and identify resources that are cognizant of the importance of cultural representation. P2R will establish alumni groups and support circles that represent diverse backgrounds to empower and support our clientele's adjustment to a recovered lifestyle in their personal pathway to recovery.

Workforce Development SOR 2.0 Project:

This workforce development position is a position that will work for Lorain County residents who qualify for SOR 2.0 funding, regardless of their client status. It will assess people for job readiness and connect them to any needed programming and supports that will allow them to be successful once they join the workforce. For clients who are ready to enter the workforce, this position will link people to employers who have already committed to hiring people in recovery. Resources for employers, such as the Substance Use Recovery and Workplace Safety Program through Ohio Bureau of Workers' Compensation, will be supported and shared. In addition, this role will work with the MHARS Board Communications Director, Nancy Kelsey, on marketing in order to advertise effectively to employers, potential consumers and to share success stories.

Related Facts: This program is reaching a population that previously was not connected to services, which demonstrates the value in the work being done and the need to support the program growing in order to support our community.

Number Served: Place 2 Recover SOR 2.0 Project: 94 Workforce Development SOR 2.0 Project: 34

System Impact: People in recovery are able to enter the workforce and get the needed support in order to make their workforce placement successful. This in turn supports people's overall recovery and increases recovery capital and quality of life.
