

Mental Health, Addiction & Recovery Services Board of Lorain County

About Us

Established in 2019, the Mental Health, Addiction and Recovery Services (MHARS) Board of Lorain County brings together the expertise, resources and proud histories of the Alcohol and Drug Addiction Services Board of Lorain County and the Lorain County Board of Mental Health. The people served by mental health and substance use disorder systems have a common goal - recovery. Consolidating the county's addiction and mental health organizations strengthens our ability to coordinate treatment and recovery services, which helps us improve the lives of our clients and their loved ones.

Our goal is to maximize delivery of these health services. It means providing the right care, in the right setting, at the right time.

Our Mission

The MHARS Board serves as the local authority for community mental health and substance use services. The Board is the county agency responsible for the planning, evaluation and funding of needed programs and facilities for addiction and mental health services. The Board assesses community mental health and addiction needs including setting priorities and developing plans for the operation of community substance use and mental health services and programs in Lorain County.
